

Improve your overall quality controls and your reprocessing performance.

The ChronoMEDIC tracking solution for the MDRD allows the management of the tray production cycle from the decontamination of the medical device to the patient file.

PRODUCTION

FEATURED FUNCTIONALITIES

- Assembly of the case carts based on the preference card of each surgeon or uses a generic card;
- Validate that the content of the case cart and trays are sterilized;
- Links trays and consumables to the patient;
- Allows the return of non used items.

MANAGER

FEATURED FUNCTIONALITIES

- Various lists, histories and reports;
- Preferential card (pick list) creation or interface with existing OR system;
- Schedule the cases to be picked by OR, by date and time;
- Possibility to add cases on the fly.

GENERAL ADVANTAGES OF THE CHRONOMEDIC SYSTEM

- Methodological and rapid implementation;
- Decrease in operational costs and self-financing of each module;
- Intuitive system facilitating day-to-day attendants work with simple-to-understand and easy-to-use work tools;
- Modular, flexible and adaptive solutions that allow optimal operation with the processes of your hospital center;
- Direct contact with the designer and programmers;
- Get the understanding and support of a medical team that understands your reality.

For over 25 years, the Canadian company N.B. Automation specializes in the design and development of management solutions for quality control and traceability.

ChronoMEDIC is an intuitive solution that makes health care workers and managers day-to-day work easier.
