

Track your parcels from receipt to delivery to the entitled recipient and keep its full tracking history.

ChronoMEDIC's traceability solution for parcel delivery is both a securing packages method and an effectively controlling tool of transition points during delivery.

### Parcel distribution module

#### PRODUCTION

- Parcel reception;
- Carrier goods return in case of delivery error;
- Customer parcel distribution;
- Database history consultation;
- Steps are done on desktop or portable computers.

#### HISTORICAL AND REPORTS

- Complete receptions history;
- Complete distributions history;
- Complete boxes history;
- Parcel distribution detailed report;
- Automatic deliveries confirmation by email to customers.

## PARCEL DISTRIBUTION MODULE BENEFITS

- The goods receiving department better controls a by carrier parcel entries and keeps all reception detailed history;
- Ability to consult parcel history from hospital reception until delivery, including acceptance agent distribution signature.
- Each employee must log in to access the system. Production is then under control and the manager knows what has been done and by whom .
