

Optimize the management and control of your endoscope cabinets

ChronoMEDIC's endoscope cabinet management solution allows to have full traceability of its endoscopes location in its storage cabinets as well as a preventive management of the expiry date of each of its endoscopes.

Equipped with a touch screen and a dedicated computer, our endoscope storage cabinet management solution works completely autonomously or linked with our endoscopy module.

THE MANAGEMENT MODULE OF ENDOSCOPE CABINETS

CONTROL AND IDENTIFICATION

- Complete and secure users identification;
- Input and output identification control of each endoscope;
- Alert and simple identification of endoscopes to be reprocessed;
- Quick location identification of the next endoscope to be used.

TRACEABILITY

- Precise and detailed list of endoscopes by storage location;
- Full endoscope movement traceability to other cabinets;
- Consultation of endoscopes by type and expiry date.

REPORTS AND HISTORY

- Consultation of the complete histories of entries and exits per day and per user;
- Multiple report printing as needed.

GENERAL ADVANTAGES OF THE CHRONOMEDIC SYSTEM

- Methodological and rapid implementation;
- Decrease in operational costs and self-financing of each module;
- Intuitive system facilitating day-to-day attendants work with simple-to-understand and easy-to-use work tools;
- Modular, flexible and adaptive solutions that allow optimal operation with the processes of your hospital center;
- Direct contact with the designer and programmers;
- Get the understanding and support of a medical team that understands your reality.

For over 25 years, the Canadian company **N.B. Automation** specializes in the design and development of management solutions for quality control and traceability.
